1. Registrant understands and agrees that any Data / Datasets that JHU provides to Registrant are proprietary and confidential to JHU.

2. Registrant agrees that Registrant will use the Data / Datasets solely for research purposes and for no other purpose.

3. Registrant agrees that Registrant will not attempt to identify, re-identify, contact, or influence any individual or group from the Data / Datasets. Furthermore, Registrant agrees that Registrant will not reproduce any portion, excerpt, or example of the Data / Datasets in any published works or public venues, to prevent re-identification from others.

4. Registrant agrees that Registrant will not disclose, disseminate, or otherwise share the Data / Datasets to or with any other person or entity except with persons or entities on Registrant's Research team, as expressly listed below, each of which persons/entities Registrant will inform of the obligations with respect to use and confidentiality of the Data under this Agreement:

Persons/Entities on Registrant's Research team	*Signature*	*E-mail address*

Registrant shall be responsible for compliance by these persons/entities with the terms of this Agreement and any breach thereof. Registrant shall also be responsible to protect the Data / Datasets from unauthorized access and under security protocols afforded to all other IRB- approved or sensitive Data / Datasets.

5. Registrant agrees not to use the name or logo of Johns Hopkins University or any of its affiliates or any of their respective trustees, directors, officers, staff members, employees, students or agents for any purpose without JHUs' prior written approval excepting in the course of presentation and or publication deriving from the Competition wherein the data source is acknowledged.

6. All Data / Datasets disclosed pursuant to this Agreement, including without limitation all written and tangible forms thereof, shall be and remain the property of JHU. Upon termination of this Agreement as provided in Section 7 below, Registrant shall cease using the Data / Datasets.

7. Partners may terminate Registrant's access to Data / Datasets under this Agreement for any reason upon written notice to Registrant.

Registrants are expressly prohibited from using this data or their participation in the Hackathon and/or Shared task for commercial purposes of any kind, including but not limited to algorithm development or evaluation, model development or evaluation, evaluation of features, feature engineering, reports, or visualizations used for any for-profit purpose, where for-profit purposes include but are not limited to prototyping, product development, marketing, public relations, or pursuit of funding. Statements related to participation in the Hackathon or Shared Task shall not be made either publicly or in private in any way for commercial purposes without the express written approval of JHU.

8. Registrant attests that they have obtained permission from their organization's Institutional Review Board (IRB) or equivalent ethics committee. Registrant agrees to follow any guidelines set forth by the committee, including for the storage and protection of the data. Registrant agrees to follow the research protocols as approved by the committee.

9. Registrant acknowledges that the appropriate paper for citation for publications that make use of the data is as follows:

Glen Coppersmith, Mark Dredze, Craig Harman, Kristy Hollingshead, Margaret Mitchell. **CLPsych 2015 Shared Task: Depression and PTSD on Twitter**. *NAACL Workshop on Computational Linguistics and Clinical Psychology*, 2015.

10. Registrant's obligations under this Agreement shall survive the expiration or termination of the Agreement.

11. This Agreement may be modified or amended only in a writing signed by duly authorized representatives of both Registrant and JHU. This Agreement shall be governed by and construed in accordance with the laws of the State of Maryland. Any claim or action brought under this Agreement shall be brought in the federal or state courts of Maryland.

Return completed Agreement to:

Mark Dredze, Ph.D. Associate Professor, Johns Hopkins University
