RAK

The App that allows you to send Random Acts of Kindness
The app that allows you to send Random Acts of Kindness.

Shown to the left is the title page.

To start sending RAK's just click the Get Started Button!
Shown to the left is the Default Page! It has the default smile picture that will be sent if no other photo is taken or chosen from your gallery.

You can edit the text that goes on the picture along with its font, color and location with the dropdowns and location arrows respectively.

You can also request random text to be shown and refresh back to the defaults shown here.
Shown here is our most recent RAK we sent.

As you can see when you click the text box a keyboard will be displayed covering the other options.

The ‘-’ button allows you to see those options again or if you are happy after editing the text you can proceed to select your contacts to send your RAK.
This is the final activity before the RAK is sent.

Here you select from the preexisting contacts in your phone who you want to send the message too.

You are also able to search for a specific contact or have the app randomly select a contact for you.

Once you are happy with the contacts selected, you hit the send button that will send your RAK and take you back to the title page to allow for more random fun!
