DATABASES USED IN MULTIPLE QUESTIONS

The following is a relational database used in multiple questions on this exam.

This database contains information about the past 20 years of games and players for the *World Extreme Badminton League.*

A player plays for *no more than* one team per season (equivalent to a year).

Players are not required to play all games. If they don't play a game they are not loaded in the database for that game.

You can assume that every season has at least one game (or match), and that every game has at least one player per team playing. All referees are players in the league.

PLAYER	PName	BDate	Sex	CityOfBirth	CountryofBirth
	Wally Whinger	1/1/84	Male	Baltimore	USA
	Colette Cretin	2/2/86	Female	Paris	France
	Steven Simpleton	4/26/92	Male	Sydney	Australia
	Colin Creep	3/16/94	Male	Manchester	UK

TEAM	HostCity	TName	HostCountry
	Baltimore	BasketCases	USA
	Toronto	Thugs	Canada
	Topeka	Thiefs	USA
	London	Leeches	UK
	Osaka	Obese	Japan
	Shanghai	Slugs	China
	Montreal	Morons	Canada
