Abstract

An exploration of the research on “Grit”, interleaved with the story of writing Practical Object-Oriented Design, An Agile Primer Using Ruby, and the tale of a horrendous bike ride. This talk will convince you that you can accomplish anything.

Bio

Sandi Metz, author of Practical Object-Oriented Design in Ruby and 99 Bottles of OOP, believes in simple code and straightforward explanations. She prefers working software, practical solutions and lengthy bicycle trips (not necessarily in that order) and writes, consults, and teaches about object-oriented design.
