

Driving Lesson Activity

- to record the details of a driving lesson
- buttons
 - start: sets beginning time
 - stop: sets ending time
- date picker
- display elapsed hours
- day/night radio buttons
- spinners
 - road type
 - weather condition

The screenshot shows a mobile application interface titled "DRIVE". At the top left is a steering wheel icon. Below it are two buttons: a green "START" button and a red "STOP" button. Underneath these are two input fields: "DATE" with the value "3/3/2012" and "HOURS" with the value "1.25". Below the input fields are two radio buttons: "DAY" (which is selected) and "NIGHT". Below the radio buttons is a label "Road type:" followed by a spinner menu showing "Residential" with a downward arrow. Below that is a label "Weather condition:" followed by another spinner menu showing "Clear" with a downward arrow.
