Johns Hopkins University

DATA USE AND CONFIDENTIALITY AGREEMENT

for access to models and/or data from:

“Using Noisy Self-Reports to Predict Twitter User Demographics”

Johns Hopkins University (“JHU”) controls certain models and data, in the form of social media data, which have been de-identified within the meaning of the Johns Hopkins University Institutional Review Board Privacy Rule (the “Models” and “Data”). JHU wishes to make the Models and Data, in the form of one or more “Datasets,” available to eligible registrants. JHU is making the Models and Data available solely for the purpose of enabling registrants to conduct research (the “Purpose”).

This Data Use and Confidentiality Agreement explains the terms and conditions of access to the Data by registrants in the Competition. ANY REGISTRANT WHO WISHES TO ACCESS THE DATA AND/OR MODELS MUST READ AND AGREE TO THE FOLLOWING TERMS BY ENTERING THE INFORMATION REQUESTED BELOW, SIGNING AND RETURNING THE AGREEMENT TO PARTNERS AS DIRECTED BELOW.

Registrant is either (check one):

___ an individual, requesting Data under this Agreement on behalf of himself/herself

1. Registrant understands and agrees that any Models / Data / Datasets that JHU provides to Registrant are proprietary and confidential to JHU.

2. Registrant agrees that Registrant will use the Models / Data / Datasets solely for research purposes and for no other purpose.

3. Registrant agrees that Registrant will not attempt to contact or influence any individual or group from the Data / Datasets. Registrant agrees that Registrant will not reproduce any portion, excerpt, or example of the Data / Datasets or Model outputs in any published works or public venues.

4. Registrant agrees that any use of these Models / Data / Datasets will be restricted to population-level analyses of demographics and not the analysis of individual users. Registrant explicitly agrees to not target or analyze any individual user based on race, ethnicity, or gender. Registrant agrees that any papers or other written analyses derived from the use of these models or data will consider the ethical concerns and possible harms of the misuse of demographic inference tools.

5. Registrant agrees that Registrant will not disclose, disseminate, or otherwise share the Models / Data / Datasets to or with any other person or entity except with persons or entities on Registrant’s Research team, as expressly listed below, each of which persons/entities Registrant will inform of the obligations with respect to use and confidentiality of the Models / Data under this Agreement:

<table>

<tr>
<th>Persons/Entities on Registrant’s Research</th>
<th>Signature</th>
<th>E-mail address</th>
</tr>
</thead>
</table>
Registrant shall be responsible for compliance by these persons/entities with the terms of this Agreement and any breach thereof. Registrant shall also be responsible to protect the Models / Data / Datasets from unauthorized access and under security protocols afforded to all other IRB-approved or sensitive Data / Datasets.

6. Registrant agrees not to use the name or logo of Johns Hopkins University or any of its affiliates or any of their respective trustees, directors, officers, staff members, employees, students or agents for any purpose without JHU's prior written approval excepting in the course of presentation and or publication deriving from the Competition wherein the data source is acknowledged.

7. All Models / Data / Datasets disclosed pursuant to this Agreement, including without limitation all written and tangible forms thereof, shall be and remain the property of JHU. Upon termination of this Agreement as provided in Section 7 below, Registrant shall cease using the Models / Data / Datasets.

8. Partners may terminate Registrant’s access to Models / Data / Datasets under this Agreement for any reason upon written notice to Registrant.

Registrants are expressly prohibited from using these models or data for commercial purposes of any kind, including but not limited to algorithm development or evaluation, model development or evaluation, evaluation of features, feature engineering, reports, or visualizations used for any for-profit purpose, where for-profit purposes include but are not limited to prototyping, product development, marketing, public relations, or pursuit of funding.

9. Registrant attests that they have obtained permission from their organization’s
Institutional Review Board (IRB) or equivalent ethics committee. Registrant agrees to follow any guidelines set forth by the committee, including for the storage and protection of the models and/or data. Registrant agrees to follow the research protocols as approved by the committee.

10. Registrant acknowledges that the appropriate paper for citation for publications that make use of the models and/or data is as follows:

11. Registrant’s obligations under this Agreement shall survive the expiration or termination of the Agreement.

12. This Agreement may be modified or amended only in a writing signed by duly authorized representatives of both Registrant and JHU. This Agreement shall be governed by and construed in accordance with the laws of the State of Maryland. Any claim or action brought under this Agreement shall be brought in the federal or state courts of Maryland.

Return completed Agreement to:

   Mark Dredze, Ph.D.
   Associate Professor, Johns Hopkins University
   mdredze@cs.jhu.edu

BY ENTERING THE INFORMATION REQUESTED IN THIS AGREEMENT AND BY SIGNING AND RETURNING THE AGREEMENT TO JHU AS DIRECTED ABOVE, REGISTRANT AFFIRMS THAT REGISTRANT HAS READ THE TERMS AND CONDITIONS OF ACCESS TO MODELS AND/OR DATA AND AGREES TO THEM.
