Regular Papers

<i>Unsupervised Training for Overlapping Ambiguity Resolution in Chinese Word Segmentation</i> Mu Li, Jianfeng Gao, Changning Huang and Jianfeng Li	1
<i>Class Based Sense Definition Model for Word Sense Tagging and Disambiguation</i> Tracy Lin and Jason S. Chang	8
<i>Utterance Segmentation Using Combined Approach Based on Bi-directional N-gram and Maximum Entropy</i> Ding Liu and Chengqing Zong	16
<i>Two-Character Chinese Word Extraction Based on Hybrid of Internal and Contextual Measures</i> Shengfen Luo and Maosong Sun	24
<i>A Bottom-up Merging Algorithm for Chinese Unknown Word Extraction</i> Wei-Yun Ma and Keh-Jiann Chen	31
<i>The Effect of Rhythm on Structural Disambiguation in Chinese</i> Honglin Sun and Dan Jurafsky	39
<i>Annotating the Propositions in the Penn Chinese Treebank</i> Nianwen Xue and Martha Palmer	47
<i>CHINERS: A Chinese Named Entity Recognition System for the Sports Domain</i> Tianfang Yao, Wei Ding and Gregor Erbach	55
<i>Chinese Lexical Analysis Using Hierarchical Hidden Markov Model</i> Hua-Ping Zhang, Qun Liu, Xue-Qi Cheng, Hao Zhang and Hong-Kui Yu	63
<i>Modeling of Long Distance Context Dependency in Chinese</i> GuoDong Zhou	71
<i>A Chinese Efficient Analyser Integrating Word Segmentation, Part-Of-Speech Tagging, Partial Parsing and Full Parsing</i> GuoDong Zhou and Jian Su	78

Poster Papers

<i>Building a Large Chinese Corpus Annotated with Semantic Dependency</i> Mingqin Li, Juanzi Li, Zhendong Dong, Zuoying Wang and Dajin Lu	84
<i>News-Oriented Automatic Chinese Keyword Indexing</i> Sujian Li, Houfeng Wang, Shiwen Yu and Chengsheng Xin	92
<i>Semantic Maps for Word Alignment in Bilingual Parallel Corpora</i> Qing Ma, Yujie Zhang, Masaki Murata and Isahara Hitoshi	98
<i>Abductive Explanation-based Learning Improves Parsing Accuracy and Efficiency</i> Oliver Streiter	104

<i>The semantic Knowledge-base of Contemporary Chinese and Its Applications in WSD</i> Hui Wang and Shiwen Yu.....	112
<i>Learning Verb-Noun Relations to Improve Parsing</i> Andi Wu	119
<i>Single Character Chinese Named Entity Recognition</i> Xiaodan Zhu, Li Mu, Jianfeng Gao and Changning Huang	125
Bakeoff Papers	
<i>The First International Chinese Word Segmentation Bakeoff</i> Richard Sproat and Thomas Emerson	133
<i>Combining Segmenter and Chunker for Chinese Word Segmentation</i> Masayuki Asahara, Chooi Ling Goh, Xiaojie Wang and Yuji Matsumoto	144
<i>Chinese Word Segmentation Using Minimal Linguistic Knowledge</i> Aitao Chen	148
<i>Chinese Word Segmentation at Peking University</i> Duan Huiming, Bai Xiaojing, Chang Baobao and Yu Shiwen	152
<i>A Two-stage Statistical Word Segmentation System for Chinese</i> Guohong Fu and Kang-Kwong Luke.....	156
<i>Integrating Ngram Model and Case-based Learning for Chinese Word Segmentation</i> Chunyu Kit, Zhiming Xu and Jonathan J. Webster.....	160
<i>A Unicode Based Adaptive Segmentor</i> Q. Lu, S. T. Chan, R. F. Xu, T. S. Chiu, B. L. Li and S. W. Yu.....	164
<i>Introduction to CKIP Chinese Word Segmentation System for the First International Chinese Word Segmentation Bakeoff</i> Wei-Yun Ma and Keh-Jiann Chen.....	168
<i>Chinese Word Segmentation in MSR-NLP</i> Andi Wu	172
<i>Chinese Word Segmentation as LMR Tagging</i> Nianwen Xue and Libin Shen	176
<i>SYSTRAN's Chinese Word Segmentation</i> Jin Yang, Jean Senellart and Remi Zajac.....	180
<i>HHMM-based Chinese Lexical Analyzer ICTCLAS</i> Hua-Ping Zhang, Hong-Kui Yu, De-Yi Xiong and Qun Liu	184
<i>Chunking-based Chinese Word Tokenization</i> GuoDong Zhou	188
